

MF 3 SERIES

GROUND EFFECT // SPECIALTY // VINEYARD

MASSEY FERGUSON

BORN TO **FARM**

MF 3 SERIES GROUND EFFECT

Convenient and Comfortable Operation

- ▶ Easy-to-use ergonomically placed controls

Increased Performance

- ▶ Stage V-compliant 4-cylinder, 3.6-liter engine (> 75 HP) or 3.4-liter engine (75 HP)

New Hood Styling

- ▶ Design includes saber stripe and new numbering to match the Massey Ferguson® product portfolio

Outstanding Maneuverability

- ▶ Sculpted chassis helps deliver tight turns

MAXIMIZE YOUR PRODUCTIVITY.

Featuring a low-profile design along with a comfortable operator platform, the MF 3GE is an ideal solution for use on operations that need low clearance under trees or the ability to fit in greenhouses or polytunnels.

At just over 4 feet wide, with a range of horsepower options from 75 to 105, the GE or Ground Effect option allows you to work in areas where other tractors just can't go.

The MF 3GE gives you the power and torque you need to get the job done right, at a lower total cost of ownership than other options in its class.

Excellent Accessibility to Low and Confined Areas

- ▶ Compact dimensions and foldable ROPS frame*

Superb Visibility

- ▶ Aftertreatment system is perfectly integrated under the low-profile hood

Powerful Hydraulic Flow

- ▶ Provides high efficiency for operating loaders, pruners and trimmers

High Performance With Versatility

- ▶ Offers up to 4,400 lbs maximum lift capacity

Wide Transmission Choices

- ▶ Options range from a straightforward mechanical transmission to our higher specification offering equipped with power shuttle and speed shift

*Please refer to your manual on correct operation of foldable ROPS and follow all safety instructions.

MF 3 SERIES SPECIALITY (SP) VINEYARD (VI)

Superb Visibility

▶ With a compact aftertreatment system, horizontal exhaust and low hood height, you get unmatched visibility and maneuverability

New Hood Styling

▶ Design includes saber stripe and new numbering to match the Massey Ferguson product portfolio

Increased Performance

▶ Horsepower ranging from 75 to 115 HP with Stage V-compliant 4-cylinder, 3.6-liter engine

Outstanding Maneuverability

▶ From the curved chassis allowing for tighter turns

Greater Working Efficiency

▶ Thanks to an increase in gross vehicle weight by up to 880 lbs, allowing the use of larger, higher-capacity implements

TAILOR-MADE FOR YOUR UNIQUE OPERATION.

Featuring some of the best visibility on the market, along with a robust cab environment, narrow turning radius and available power shuttle transmission, the MF 3SP and 3VI are ideal solutions for vineyard operations.

At a width of 4 feet, the SP or Specialty option is your perfect partner for working in more open vineyards. And at just over 3 feet wide and coming in at 95 HP, the VI or Vineyard option fits perfectly in narrow vineyard rows.

With options to fit a variety of operations, the SP and VI give you the versatility and power you need, all at a lower total cost of ownership to help you get the most out of your investment.

Work in All Conditions

- ▶ Optional LED lights keep you working until the job is done

Increased Comfort and Safety

- ▶ A spacious semi-flat-floor cabin with additional headroom and enhanced control layout

Convenient Operation

- ▶ Easy-to-use, ergonomically designed controls

Intuitive Modern Dashboard

- ▶ Provides simple and clear color display of operating information and settings

Better Efficiency

- ▶ Operate mowers, pruners and trimmers easier thanks to powerful hydraulic flow

Higher Productivity

- ▶ Features an extra transmission speed as well as new brake-to-neutral feature to enhance operations

Precise and Straightforward

- ▶ Linkage control available with standard 5,500 lbs lift capacity

Greater Stability and Reduced Downtime

- ▶ Fuel tank is located under the cab, which has capacity up to 19.8 gallons (VI) and 24.4 gallons (SP)
